

K-LOVE is the radio station in the Phoenix area that I listen to exclusively. My life is greatly enhanced by the music that they provide in this area. There are NO OTHER STATIONS in this area with this format (music only, no speakers). My community is overrun with all the other music stations, but if K-LOVE were to be off the air here I would have no other station to turn on to get this type of music all day, every day.

I believe that the service K-LOVE provides to my community is a very needed and necessary message of hope and peace.

There are no lyrics that put people down, use foul language, condone killing, violence against women, hate crimes. There are any number of other stations in my community that do promote these lyrics, but K-LOVE doesn't and that's the message we all need to hear in these days of terror. If K-LOVE were to be off the air, this positive message would not be promoted by another station in the metropolitan area as it is with K-LOVE - all music all the time.

Please do not allow LPFM to replace the FM service for K-LOVE in my area (105.5, 89.1, 100.9).

Thank you for your consideration of all people, regardless of race, creed, gender.
